

.. the conscientious, explicit and judicious use of current best evidence in making decision about the care of individual patient.

- The practice of evidence based medicine means integrating individual clinical expertise with the best available external clinical evidence from systematic research. By individual clinical expertise the proficiency and judgment that individual clinicians acquire through clinical experience and clinical practice. Increased expertise is reflected in many ways but **especially** in more effective and efficient diagnosis and in **more thoughtful identification and compassionate use of individual patients' predicaments, rights, and preferences in making clinical decisions about their care**

Medicina informata, informativa e condivisa

- Evidence Based Medicine
 - Conoscenza e condivisione delle migliori evidenze scientifiche
 - Trasmissione delle conoscenze
 - Incorporazione delle preferenze del paziente nelle decisioni cliniche
- Perciò: fare ciò che è utile al pz.

La sfida formativa

- L'EBM come strumento di decisione clinica "con" il paziente
- Acquisizione delle competenze comunicative medico-paziente in diversi contesti operativi
