

.. the conscientious, explicit and
judicious use of current best evidence
in making decision about the care of
individual patient.

- The practice of evidence based medicine means integrating individual clinical expertise with the best available external clinical evidence from systematic research. By individual clinical expertise the proficiency and judgment that individual clinicians acquire through clinical experience and clinical practice. Increased expertise is reflected in many ways but **especially** in more effective and efficient diagnosis and **in more thoughtful identification and compassionate use of individual patients' predicaments, rights, and preferences in making clinical decisions about their care**

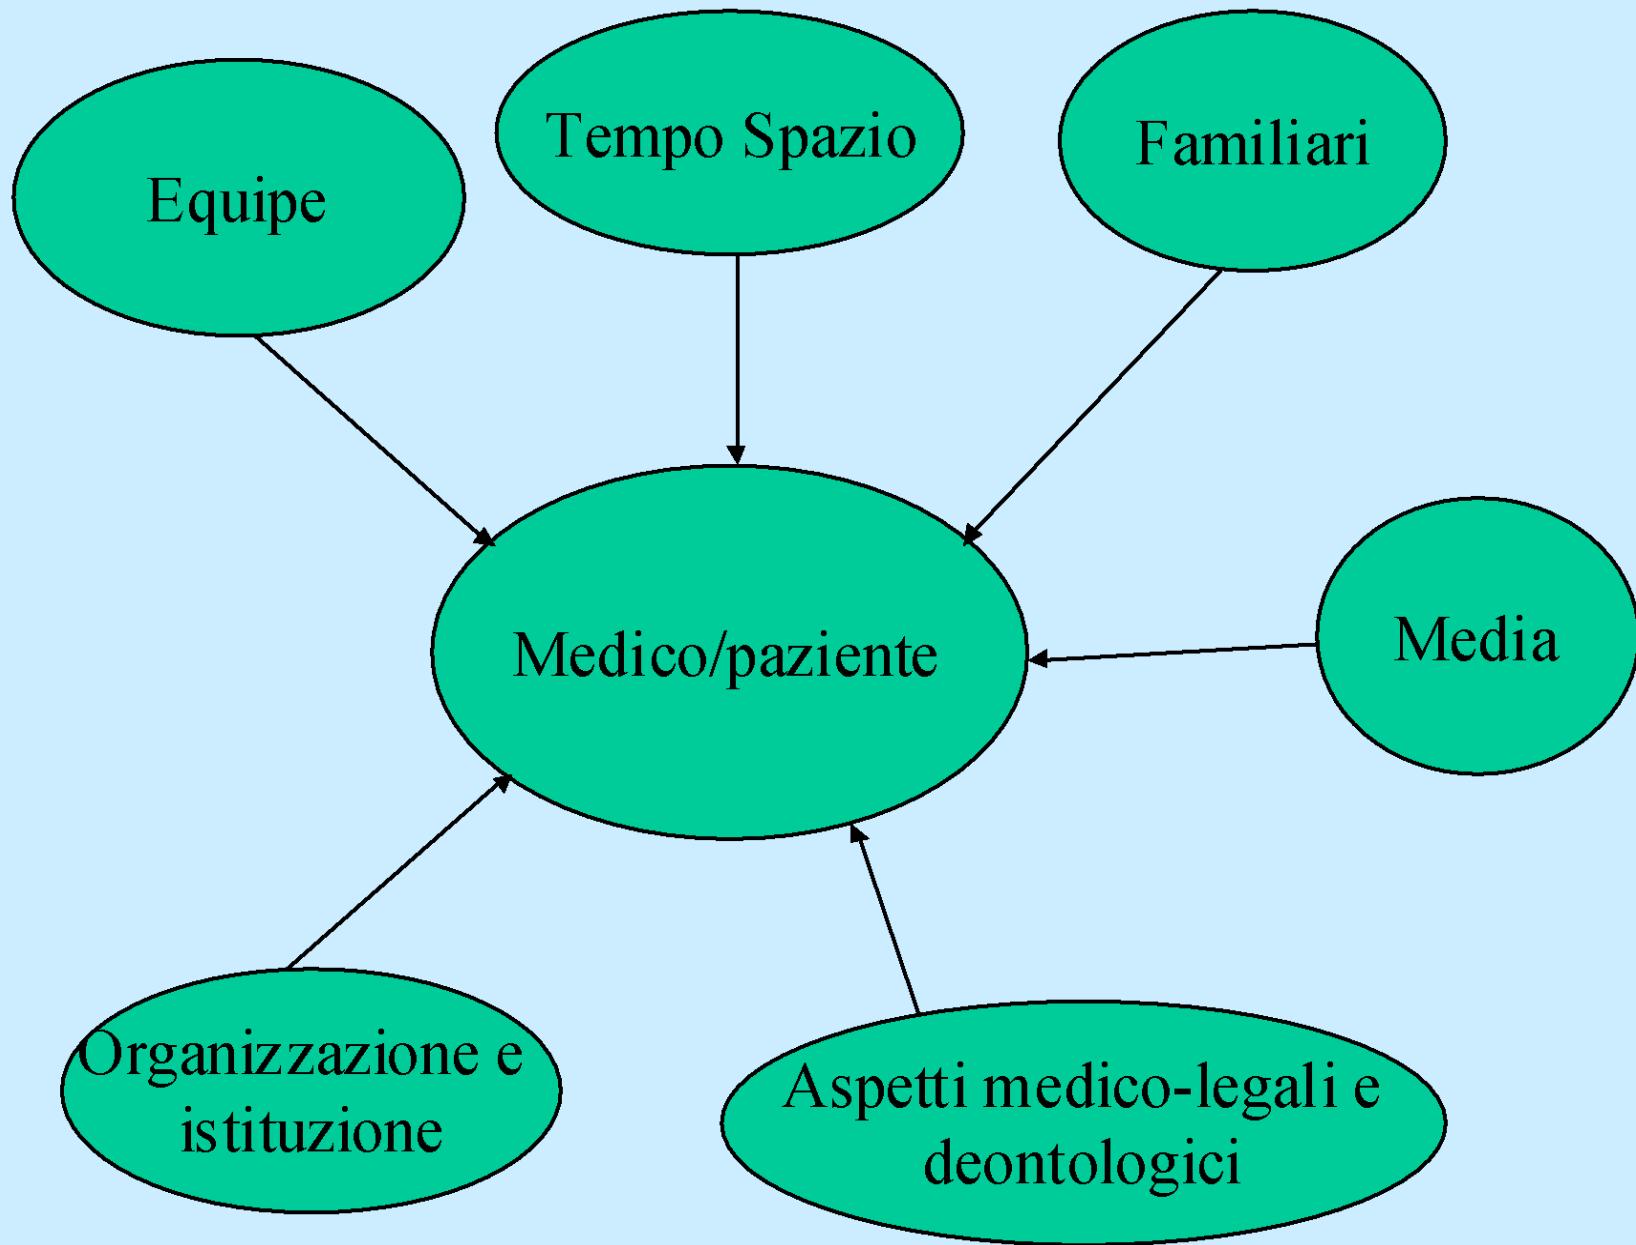

Onnipotenza

Aspettative

Frustrazione

Delusione

Medicina informata, informativa e condivisa

- Evidence Based Medicine

Conoscenza e condivisione delle
migliori evidenze scientifiche

Trasmissione delle conoscenze

Incorporazione delle preferenze del
paziente nelle decisioni cliniche

Perciò: fare ciò che è utile al pz.

La sfida formativa

- L'EBM come strumento di decisione clinica “con” il paziente
- Acquisizione delle competenze comunicative medico-paziente in diversi contesti operativi
